Dear Parents and Guardians;

In order to safely and efficiently transport our students, we ask that each student using school bus transportation have one pick-up and one drop off location. (In the case of two household families we will allow one pick-up and one drop off per household.)

If any change needs to be made to a student's school bus transportation plan it must be approved by the transportation office. This includes bus pass requests. Bus pass requests need to be received by 2 PM. Please direct all requests or questions to the transportation office, the contact information is below;
