

February 25, 2019

Dear Parents,

I am thrilled to introduce **Unbound**, a new program which will deliver library books to your child right at their desk. They will have access to thousands of high-interest books to strengthen their literacy and get them excited about reading!

How does it work? Your child will be given an account with the Mason County District Library so that they can independently request materials that will then be delivered to them at their school library or in their classroom. Children under age 13 will be directed to use our kids catalog, which only lets them view age-appropriate items. The program is completely free and requires no action on your part.

**Unbound** is delivered right to your students through a collaboration of Mason County Central Schools, Mason County District Library, and West Shore Community College through funding from the Community Foundation for Mason County.

The goal of this program is to create a culture of literacy and increase literacy rates in our community. We are so excited to share this new program with you and your family!

For further questions please check out [unbound.mccschools.org](http://unbound.mccschools.org) or contact me at the Mason County District Library.

Sincerely,

A handwritten signature in blue ink that reads 'Patti'.
